JUNIOR PRIMARY DEPARTMENT.

The Princhals, recognizing the great advantage to little children of being trained under their supervision for the various classes of the Primary Department, have organized such a preparatory school. It will be put in the hands of a lady of long and successful experience in teaching little children; and, though in the same building, will be so far detached that the children need not come in contact with the rest of the school; nor will they be confined more than three and a half or four hours per day. Children thus trained from the beginning in our methods of instruction will have very great advantages—receiving, as they will do, the closest perntages—receiving, as they will do, the closest per-nal attention both from their instructor and from cipal, and at the same charge that the pri-hools make-viz.. \$35 per session, to the Principals, or at the Lookstores, for catalogues giving full particulars. se 11-dtSe25
